

MAGMA SYN V1 SAE 5W-30

“ Fully synthetic, lowSAPS, long-life engine oil; service-fill ideal for VW units

Suitable for VW Group, BMW, Mercedes-Benz & Porsche engines

MAGMA SYN V1 SAE 5W-30 is a fully synthetic, top-tier passenger vehicle engine oil, developed to provide for high levels of protection and cleanliness of the engine.

Based on premium quality synthetic base oils and a advanced low ash, phosphorus and sulfur additive technology, it ensures exceptional engine performance, not at the expense of overall engine protection from wear and elevated temperatures, and after-treatment system compatibility.

	Turbocharger protection	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/>

Try to remember

- ✓ Fully synthetic PC engine oil ; SAE 5W30
- ✓ TriboACT® Formula inside.
- ✓ Based on LowSAPS additive technology, it prolongs the life of the diesel particulate filter.
- ✓ Up to 1,7% fuel economy benefits provided.
- ✓ High and low temperatures thermal stability ensured.
- ✓ “longLife” philosophy in place for drain intervals up to 30,000 kilometers.
- ✓ Engineered to meet the demanding performance requirements of – and approved against – VW 504.00/507.00 specification.

OEM	Approved
VW Audi Skoda SEAT	504.00/507.00
ACEA	C3
BMW	LongLife-04
Daimler	MB-Approval 229.51
Porsche	C30
Performance level:	
ACEA	C2

Proven Wear Protection Performance

MAGMA SYN V1 5W-30

Industry Standard Engine Oil

LPC's "tribological-action" empowering formula was developed to address the latest industry challenges and exceed the continuously evolving lubrication requirements of engine manufacturers.

What is it?

TriboACT® is an additive system that is based on the extra strong chemical interaction of various polarity ingredients included within.

What does it do?

The robust and synergistic ACTION of **TriboACT®** boosts the lubricant's critical tribological characteristics:

- **Oil film consistency in the valve train.**
- **Wear control in the piston and rings area, clean-ability in the turbocharger region.**
- **Fuel economy.**

The driving force behind **TriboACT®** is LPC's 35 years of accumulated know-how and substantial investments in formulating, testing and blending innovative and technologically superior lubricant products.

APPLICATION GUIDE

CYCLON MAGMA SYN V1 SAE 5W-30 has been developed for engines requiring specifically VW Group 504.00/507.00, Mercedes Benz 229.51 or BMW LL-04 lubricants.

It is specifically formulated for Euro 4, 5 gasoline or diesel engines, including those equipped with DPF and high pressure fuel injector units (common rail). It is, also, backwards compatible with VW oil specs (502.00, 505.00, 505.01, 503.00, 503.01, 506.00 or 506.01; except pre-2006 R5 and V10 engines) and suitable for both variable and fixed servicing (QG1 and QG0/2).

IMPROVED WEAR PERFORMANCE

MAGMA SYN V1 SAE 5W-30 has been tested against rigorous industry standards and carries various OEM approvals. It exceeds the performance requirements of ACEA C3, offering ultimate protection for diesel and petrol engines. It is suitable as factory-fill in European VW models and a prerequisite as a service-fill engine oil in VW Group's diesel units with a DPF.
